

**Rates of HIV/AIDS, STDs, and teen pregnancy are disproportionately high among African Americans. Want to do something about this?**

**Join us for a free, one day,** youth faith-based sexuality educational curriculum training! The training will provide participants with the opportunity to learn about a dynamic, one of a kind eight session curriculum, “Keeping It Real!” designed to help youth communicate with each other and their parents about sexuality from a faith informed perspective. It will also include information on how to conduct a successful parent orientation. During the training you will learn the process for implementing the program in your church or teen pregnancy prevention program. Churches and organizations who implement the program will receive free materials and technical support.
